DaikyoNishikawa Corporation

Unauthorized Access to a Group Company (3rd Update)

DaikyoNishikawa Corporation previously announced that an incident involving unauthorized access had occurred at one of our overseas consolidated subsidiaries in Indonesia. We sincerely apologize again for the significant concern and inconvenience caused to our business partners and all other stakeholders.

As a result of an investigation by external experts, we confirmed that information posted on the Internet appears to be related to data held by DaikyoNishikawa Corporation and the subsidiary. However, there has been no impact on production activities or product deliveries to customers at DaikyoNishikawa Corporation or any of our group companies, and no disruption to business operations has occurred.

With the support of external experts, we have investigated the cause and implemented necessary measures, and we continue to monitor the situation.

DaikyoNishikawa Corporation takes this matter seriously and will continue to strengthen information security across the entire group and work to prevent recurrence. If any new facts come to light, we will make an announcement as appropriate.
